JULIET

Hi I'm Juliet. I'm fourteen... But shhh...don't tell the producers. I told them I'm old enough, and I am... I totally am. I am so ready to fall in love... again.

Confession...I have been married before. And I thought it was like, written in the stars and all, you know? Anyway, it was a disaster! Our parents hated each other! Hated! You have no idea. So, we snuck off together and got married in secret.

But then my dad wanted me to hook up with his friend, Paris. Ewh! As if! Anyways (*sigh*) Romeo and I were only together like three days. (*sadly*) Three days and I lost my hubstar, (*a big pout*) but he has made the face of heaven so fine.... Sad story, right?

(*brightly*) But I'm young and I would totally die if I'm not married before I get all old and saggy, like my mum... She's like 26 or 27. Gross!
